

## Dr. Devesh Varma

Dr. Varma specializes in the full range of glaucoma surgery performing a full spectrum of complex as well as newer minimally invasive procedures. In addition to routine and refractive cataract surgery, he has particular expertise in high risk cataracts, the repair of complications from cataract surgery and reconstruction of the front portion of the eye.

He graduated first in his class in Engineering at Dalhousie University, then completed his medical school in Halifax, a residency in Ophthalmology in Saskatoon and a fellowship in Glaucoma and Advanced Anterior Segment Surgery at the University of Toronto under Dr. Ike Ahmed.

## Prof Ta Chen Peter Chang

Ta Chen Peter Chang, M.D., Professor, is a pediatric glaucoma and cataract specialist at Bascom Palmer Eye Institute.

He is the Director of Research of the Samuel & Ethel Balkan International Pediatric Glaucoma Center, the Medical Advisory Board Ophthalmology Chair for the International Sturge-Weber Foundation, and an editor for Ophthalmology Glaucoma.

Chang has research interests on childhood glaucoma surgical outcomes, genetics of congenital anterior segment anomalies and big data mining in ophthalmology.
