

# SAGS REGISTRARS' GLAUCOMA CASE STUDY COMPETITION 2026

## GENERAL

- SAGS weekend to be held at Kievits Kroon Hotel in Pretoria from 22-24 May
- The SAGS Registrar Case-study Competition is open to all registrars. The abstracts will be judged (anonymously) by the SAGS executive committee and five abstracts will be selected as oral presentations. The remainder will present e-posters at the meeting.
- The YOM faculty require that ALL cases submitted, must be verified or presented to the registrars supervising consultant or Head of Department prior to submission. This is to ensure that a minimum academic standard is maintained. We require email confirmation from the supervisor.

Please note the following guidelines for the competition:

- An abstract of a single clinical case, revolving around some aspect of Glaucoma diagnosis, management, or misdiagnosis.
- MMedS or case series will unfortunately not be accepted for the program/competition, however registrars are encouraged to submit these abstracts for the main SAGS congress.
- The case must be presented and approved by the registrar's consultant supervisor or the Head of Department prior to submission.
- Only 5 finalists will be selected to deliver the oral presentations of their cases, which will be judged by a panel of judges at the meeting.
- All other entries will be automatically entered into the e-poster section of the competition, which will also be judged a panel of judges.
- The deadline for the submission of abstract entries is 13 March 2026.
- The link to submit an abstract is <https://dipity.co.za/form-view/17>
